HAPPY NEW YEAR, FOLKS!

As we draw down the curtains on 2025, we take a moment to celebrate the journey we have been together. 2025 has been a year of diverse adventures, making our 2nd year of existence truly special with 14 rides under complete safety. Chennai Renegades has grown from strength to strength with the completion of each ride, and each one of us can take pride in this journey.

November was a milestone month as we celebrated the 2nd anniversary alongside the families of the members who have been our pillars of support. With more than 50 attendees, the event was filled with warmth and togetherness, leaving us with memories that we will always cherish.

Together, we've clocked 450,000+ kms and 7,200+ hours on the saddle. Beyond the road, our commitment to the environment has been equally strong. In 2025 alone, we had contributed for planting 221 trees through SankalpTaru bringing the total to 456 trees. This is our way of giving back to nature and ensuring that our adventures leave a positive mark.

As 2026 dawns, we extend our heartfelt wishes to you and your families for a Happy New Year. Here's to another year of rides, adventures, unforgettable memories, continued friendships and the enduring spirit of the Chennai Renegades!

Making a difference, Together

GREEN RENEGADES: RIDING TOWARDS SUSTAINABILITY

Chennai Renegades have always believed that the spirit of riding goes hand in hand with responsibility.

During this quarter, we proudly crossed the milestone of 450 trees planted—a small but meaningful step towards giving back to the environment that gives us the roads, skies, and horizons we cherish.

As we continue to grow stronger, our contribution towards environment is also growing stronger and taking a meaningful shape.

BYOB: SMALL CHANGE, BIG IMPACT

Beginning 2025, we've made a conscious effort to cut down on plastic waste by minimizing the purchase of bottled water during our refreshment breaks and overnight stays through our BYOB (Bring Your Own Bottle) initiative.

The result? Together, we've successfully avoided the use of nearly 700 plastic bottles so far—a small change in habit that's creating a big difference. While we may not eliminate plastic entirely, this is a meaningful step toward a greener, more sustainable way of riding.

A huge thank you to every rider who embraced this effort—it's proof that when we ride with purpose, the impact goes beyond the road.

“Those who plant trees not only love themselves, but also others.”

Ride Data

MILESTONES

A summary of our ride data provide valuable insight in to our collective achievement.

Over the last two years, we’ve completed 33 exhilarating rides, covering nearly 22,000 kilometers across five states and one union territory. With this, our cumulative distance now stands at an incredible 4,51,000 kilometers—a true reflection of the endurance, enthusiasm, and adventurous spirit of our riders. Together, we’ve spent more than 7,200 hours in the saddle, each one fueled by our passion for the road and our collective love for discovery.

As we close our ride log for this year, this quarter sustained the same energy from the previous one with 1 long ride and 3 short rides. One of the short rides was dedicated to our 2nd anniversary celebration, making it a special one for this year.

Family Meet at Green Coconut Resort

The Chennai Renegades celebrated the 2nd Anniversary with the families at Green Coconut Resort located in ECR, Chennai; in all its pomp and glory.

It was a fun day of celebration with the families of CR-ians, bonding over lighter moments, games, dance, music and good food. The introductions of each family and their funny stories brought out the best laughter from the entire clan as most of them were surely relating the same at their ends. This was followed by a lovely memory-down-the-lane vlog by Bart, that captured many funny moments from past rides.

The event was beautifully MC-ed by our own CR ladies, Rincy and Uma; who ensured the planned games were max fun for both kids and adults. The event also unearthed many dancing talents in kids as well as adults, which were a delight for the crowd. Finally, the swimming pool was open to all to just chill after an energetic joyous celebration of a day !

“ The love of a family is life’s greatest blessing ”
